Recognizing Excellence in Fine Architectural Woodwork

AWI’s widely-respected Award of Excellence Program distinguishes the finest custom architectural woodwork projects and acknowledges the efforts of the architects, design professionals, woodwork manufacturers responsible for those projects. Award winners receive Certificates of Excellence and the opportunity to have their distinctive projects published in Design Solutions, the quarterly journal of the Architectural Woodwork Institute.

**What’s eligible:** Only projects featuring woodwork manufactured by an AWI Manufacturing Member Company. Projects of any size are considered, including interiors, exteriors or specialty items. Selected and published projects are then eligible for the annual “Standards of Excellence” Award.

**Who can submit:** The architect, designer, woodworking firm, or project owner.

**How to submit:** Submissions may be made at any time. Follow these steps:

1. The AWI manufacturing member firm completes the
   a. General Information Form and the
   b. AWI Woodwork Manufacturing Member Statement.
2. The AWI manufacturing member firm exports and sends no more than 8 shop drawings in PDF form exported from their AutoCAD or similar program. Drawings should complement or refer to the project photographs.
3. The architect/design firm completes the Architect/Designer Form.
4. The project owner completes the MANDATORY Owner’s Form.
5. The photographer completes and signs release form granting permission to publish their images.
6. The participant responsible for submitting the project collects all the forms and photos of the project and sends them to AWI. Forms can be sent as email attachments. Drawings and Photographs by WeTransfer.
7. See Photography requirements on separate sheet.

**Design Solutions Submittal Schedule**

- **Winter Issue:** Submittals Due November 1
- **Spring Issue:** Submittals due February 1
- **Summer Issue:** Submittals Due May 1
- **Fall Issue:** Submittals due August 1

**Send Submissions to:**

Margaret Fisher, MFisher@awinet.org, direct line 571-926-5522

Image Specifications for Project Photos

Award of Excellence Program
Specifications for project images

All photographic images submitted to AWI for inclusion in Design Solutions Magazine must meet these criteria:

1. Images should be shot using professional DSLR with minimum resolution 12 megapixel+ capabilities
2. Image size should be at least 9" X 12" @100% and @300DPI.
3. ISO should not EXCEED 200 (50 to 100 is optimal)
5. Professional photographers shoot RAW images. The RAW format is best.
6. The photographer should submit images in the following formats: JPG, EPS and TIF format (from RAW files) are acceptable. And / or RAW files can also be submitted with the project.

Please Note:
- Images should NOT be cropped or interpolated up from original size.
- Images cannot be sent by way of email due to the huge file sizes. Send by WeTransfer or similar site.
- Images meeting this specification typically will yield a photo file size of 34-40+ MB when opened in Adobe Photo Shop software.
- You may send up to 12 photos. Generally, only 6-10 photos are used.
- One exterior photo is expected to be able to show the personality of the building.
- At least one Photo needs to be a vertical (portrait-oriented shot).
- Do not attach the photos to the shop drawings.

Photographic image files should be labeled with name of woodworker and name of project.

PHOTO PERMISSION RELEASE FORM IS REQUIRED. Please send the completed and signed Photo Permission Release Form with the images by WeTransfer or similar site.

Answer questions carefully and completely. The information provided will be quoted within the Design Solutions article and attributed to the person completing this form. Your descriptive statement is not limited to these questions. Please feel free to expand your answers to include information important to describe the project. Information may be submitted separate from this form. Supplemental materials may be included as well.

- List the major architectural woodwork items you fabricated for the project, such as paneling, conference table, desks, etc.

- Who installed the woodwork? If not your firm, is the installer an AWI Supplier Member?

- What woods were used on which items listed in the project? What finishes were used? Please describe any unique veneer matching or other characteristics of the woodwork.

- What woodwork items do you consider to be the most intricate, difficult or noteworthy? Why?

- What design or technical assistance did you provide?

- How did you help the project team meet scheduling and budget objectives?

- How would you summarize your working relationship with the architect/designer?

Please include some background information on your firm for the Woodworker’s Profile, as well as the name of the Project Manager, Engineering Manager, Production Manager or others who worked on this project. AWI will contact you to obtain selected shop drawings to be rendered and used in coordination with selected images.
